- Flow restrictor for Mains Pressure installation

ATTACH PROOF OF PURCHASE HERE

INSTALLATION

For pressures exceeding 500kPa install a pressure reducing valve. Failure to do so may void the warranty.

- Drill holes maximum of 650mm apart and screw in the fittings.
- Using the Allen key provided, unscrew the grub screw from both the top and bottom wall brackets and remove the back cover (retain grub screw inside the bracket).
- Attach these chrome fittings onto the wall on the holes drilled.
- Put the rail over the wall fixing and screw it tight.
- Insert rose, attach hose with conical end to the rose.

WARRANTY

Please refer to our website for warranty information: **www.foreno.co.nz/warranty**

In the unlikely event that this product fails during its warranty period, phone our Customer Service team immediately on 0508 FORENO (0508 367 366) – as unauthorised removal of the product may void the warranty.

CARE AND MAINTENANCE

When cleaning this product (including chrome, stainless steel, coloured or any other surface coating) you must not use any type of astringent, abrasive or citric cleaners.

We recommend using only a soft, damp cloth and on occasion a mild soap solution. Try to avoid excessive scrubbing as this could cause damage and void your warranty.
